Michael Vance

PRESIDENT, ASANTE ENERGY | EXPERIENCE PROFILE

Principal-led advisory for solar, battery storage, LNG, and microgrid projects. Michael’s background combines electrical industry experience, technical consulting, engineering, project management, and construction management.

CONSULTING FOCUS

Technical reviews and procurement support; owner’s engineering and delivery oversight; equipment and interface evaluation; QA/QC and commissioning readiness; LNG fuel and generation advisory; private-island and resort energy planning.

SELECTED ASSIGNMENTS

Bahamas - energy sector technical advisory
Technical advisory associated with IDB-financed energy initiatives, including procurement document reviews, terms of reference, and emergency operating criteria.

Guyana - BESS owner’s engineering
Owner’s engineering experience on a battery energy storage assignment associated with an IDB-supported project.

U.S. Virgin Islands - Cruzan microgrid
Asante balance-of-system construction delivery and project/construction management. Scope included electrical infrastructure, grounding, trenching, and contractor coordination. This describes delivery experience, not an independent commissioning-agent appointment.

Bahamas - Chub Cay microgrid expansion
Engineer of Record experience and project/construction management during part of delivery. The management engagement ended at approximately 40% construction completion.

Bahamas - CBV Nassau solar project
Engineer of Record experience on a project that had not entered construction as of October 2026. This is a preconstruction reference, not a completed construction assignment.

HOW CLIENTS ENGAGE

Defined reviews, support at a project milestone, or scheduled advisory retainers. Site visits and specialist inputs are scoped to the assignment.

PROFILE SCOPE

This is a concise experience profile, not a full procurement CV. Assignment dates, system capacities, contracting entities, formal qualifications, licenses, and current certifications must be confirmed for a tender-specific submission. Personal experience and company references are described separately when required.
